I have been a patient of Dr. Spelman's for a number of years, and continue to be very happy with his practice. Dr. Spelman and his staff are great professionals and , even more importantly, nice people! Dr. Spelman has taken care of many dental issues for me, including a root canal and a crown, as well as fillings, et. Plus, he has a very friendly and caring staff, including Ashley, and a fantastic dental hygienist in Bridget. I highly recommend this practice.

Ok. Where do I start. So the dentist is my biggest fear in life. BIGGEST. I got really great insurance and was new to the city. I asked around for recommendations to a dentist. I only had one cavity in my whole life so I was thinking sweet I'll get my teeth cleaned and bleached. I had like 17 cavities after the x Rays were reviewed. I called my mom back in ohio who's very old school..my mother was convinced this doctor is just some Vegas dentist that wants to make a buck and is gonna do elective work on me and charge me and mess stuff up so I have to keep going back. Lol. I went back to see him and Dr Spellman walked me through all my X-rays...I say in a chair played on the iPad pulled up the flat screen tv. The assistant on the room found E! For me and Dr Spellman was so amazing not only was I not fearful but I looked forward to my next few sessions to get all my work done. I have not had a deep clean in 18 months and they called the other day to check on me and also sent a post card to remind me of my time to book a visit....LOVE LOVE LOVE!!!
